<b>A0908-WH60-ST</b>	0.75"	42.00"	3.00"	2.50"	1.00"	White	0.96

***NOTE: SALT WATER RESTRICTIONS MAY APPLY. The Cable Stabilizer Stair Kit is designed specifically for stairs where post to post measurement spans over 4'. It enables you to adapt longer spans to code compliancy by stabilizing the deflection of cable between posts. Each kit comes with a 42" stanchion, mounting hardware, 3" slot spacing and fasteners. Cut at both ends for an accurate fit. Kit cannot be used to replace the use of a substantial mid post and should never be used in spans over 7'.***
